

Cornermatic+Plus™ Corners

Detail

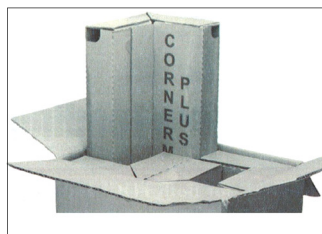

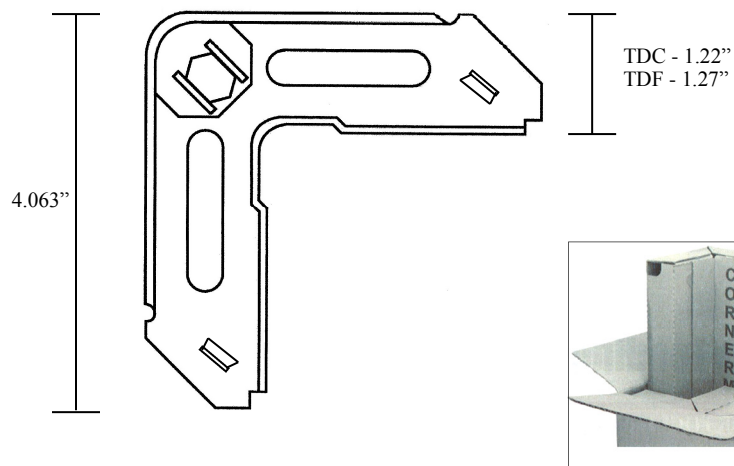

Developed for use in the Cornermatic+Plus and Retrofitted Cornermatic Machines. The corners can save time when loading the corners and improve corner insertion.

The corners work in Iowa Precision's new Cornermatic+Plus machine and Cornermatic machines that have been retrofitted with the Cornermatic+Plus conversion kit.

- Stamped from 16 gauge
- Hole for 3/8" carriage bolt
- Available in Galvanized, Galvanneal, Aluminum, PVC Coated, SS 304 and SS316

Profile
