

In order to better serve our customers, ICP Adhesives & Sealants, Inc. will continue streamlining our product offering and consolidating our brands over the coming months.

Beginning the week of July 10th, Handi-Foam® Sound Barrier low pressure spray polyurethane foam (SPF) is being discontinued. As we deplete our inventory at our warehouse facilities in the next few weeks, we will convert future orders to Handi-Foam® Low Density low pressure spray polyurethane foam (SPF).

The Handi-Foam Sound Barrier part numbers being discontinued are below:

Item Number	Product Description
P10697	II-250 Handi-Foam Sound Barrier
P10714	II-450 Handi-Foam Sound Barrier
P10747	II-1350 Handi-Foam Sound Barrier

Handi-Foam Low Density is an open cell formulation used to fill and insulate large voids and surfaces and excellent for sound deadening and reducing noise levels where a lower density foam is required. Handi-Foam Low Density offers the same performance and physical properties as Handi-Foam Sound Barrier.

Handi-Foam Low Density is available by ordering the item numbers below:

Item Number	Product Description
P10692	II-250 Handi-Foam Low Density
P10694	II-450 Handi-Foam Low Density
P10770	II-1350 Handi-Foam Low Density

All current TDS and SDS information is available by visiting www.icpadhesives.com.

If you have any specific questions, please contact your Handi-Foam® Sales Representative or our Customer Care Center by calling 330-753-4585 or by emailing customercare@icpadhesives.com.

We appreciate your business and look forward to a successful 2017.
