Did you
know?

Adverse cold-weather conditions, including rain, fog, ice, and snow, are the most dangerous to drive in, and are therefore the most dangerous conditions for roadside workers when it comes to potential hazards. Slick roads, improper defrosting of windshields, and faulty headlights can all contribute negatively to existing dangerous weather conditions. Wearing hi-visibility work wear is crucial to ensuring safety whenever motor vehicles are present. Remember: it's better to be seen!
