# About Us

General Insulation Company, Inc. was founded in Boston, Massachusetts as a contracting company in 1927, refocused as a distribution company in 1973, and sold to the current owner, Frank Granara, in 1982. Over the last three decades,

Frank led the company on an ambitious growth strategy, taking GIC from a single branch in Boston to over 50 branches across North America. GIC is positioned to service all major markets around the world as we continue to expand in new geographic regions, including Central/South America, Europe, and Asia.

GIC is the largest privately-held mechanical insulation distributor in North America. We service many diverse markets including commercial, industrial, HVAC, firestop, marine, abatement, home improvement/weatherization, and building enclosure. GIC also boasts fabrication capabilities to service a variety of contractors along with plants and OEM's.

Please visit our branch locations, [www.generalinsulation.com](http://www.generalinsulation.com), and social media channels for more information!

  
GENERAL  
INSULATION COMPANY, INC.

# INDUSTRIAL SOLUTIONS

***General Insulation Company*** understands the demanding requirements of the Industrial Sector. Time management is critical and our supply-chain management enables us to source and supply products efficiently and on time. We provide job-site managed inventory services enabling contractors to achieve their necessary productivities as well as facilitating a cleaner and safer environment.

***Our team*** focuses on the specific needs of any industrial facility including personnel protection, noise control, CUI prevention, fire protection, heat conservation, condensation and frost prevention, and many other energy control and conservation needs.

***Partnered*** with premiere insulation manufacturers, General Insulation will review project needs to ensure all specifications are up to date and all systems are insulated according to industry standards.

# FABRICATION SOLUTIONS

*As part* of our product offerings, General Insulation Company provides high-quality fabricated insulation for all mechanical systems. With three dedicated facilities to cut cellular glass, urethane, expanded polystyrene, stone wool, and phenolic insulations, we are capable of fabricating pipe insulation and fittings for any small or large project.

*We provide* insulation that fits and assembles easily on the job site. Whether it be small or large bore pipe, or horizontal or vertical tanks, our shops will produce top-quality fabricated insulation on time, every time.

*General Insulation Company* provides certified products for installation into original equipment. Our Quality Assurance Program guarantees that all parts are fabricated to your specifications.

# MARINE SOLUTIONS

*K-Flex Non-Halogen Tubing*

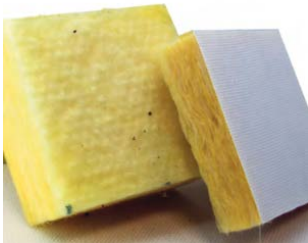

*K-Flex Eco Sheet Non-Halogen Elastomeric Sheet*

*Incombustible Microlite Fiberglass High Temperature Blanket*

***When you are in need*** of a custom insulation part for your marine equipment, General Insulation Company is ready to work. We have the specialized equipment and staff necessary for the production of your specialized insulation part.

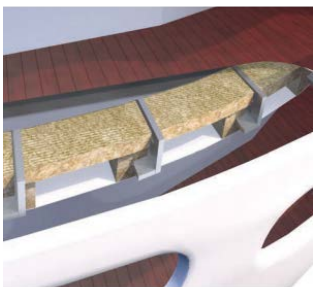

***Our partnership*** with top insulation manufacturers ensures the supply of high-quality insulation parts for your marine equipment. Our Quality Assurance Program guarantees that all parts are fabricated to your specifications.

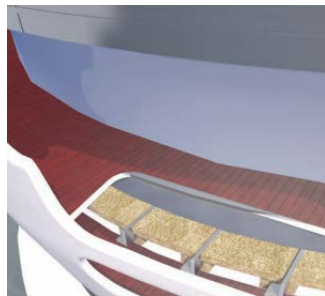

*Fiberglass Hullboard*

*Roxul SeaRox PS 968 Marine Pipe Insulation*

# 3M FIRE PROTECTION

## *Protecting what's important...lives.*

3M has been creating innovative firestop systems for more than 25 years. Our complete line of fire protection products helps stop the spread of fire, smoke, and toxic fumes. They are easy to install and are approved for a wide variety of firestop applications by Underwriter's Laboratories, Inc., Warnock-Hersey, Factory-Mutual, and Intertek/Omega Point Laboratories. 3M provides fully tested systems to firestop in all of the following scenarios: through-penetrations, perimeter joints, top-of-wall gaps, structural steel, emergency circuitry, and grease/air ducts.
