

April 17th, 2026

Dear Valued Enverge Spray Foam Customers,

The urethane industry continues to experience raw material price increases along with supply concerns due to raw material shortages and significant increases in fuel and transportation costs.

Amrize is working with our suppliers to ensure the continued availability of Enverge Spray Foam products to support our customer base. Amrize must now implement a price increase of \$0.25 per pound for orders shipped on or after May 1st, 2026.

Additionally, due to severely restricted raw material availability, which is expected to continue throughout Q2 2026, please expect longer than average lead times and significant order delays.

We greatly value your partnership. If you have any questions regarding your new pricing, please contact your Sales Area Manager.

Thank you for your continued support and your patience as we work to provide you material as soon as it becomes available.

Sincerely,

Kevin Page
