

## USA PRICE INCREASE NOTICE

**Effective Date: May 1, 2026**

Dear Valued Customer,

Over the past several weeks, global markets have experienced significant disruption driven by ongoing geopolitical developments and the current state of global affairs, creating uncertainty across many sectors tied to industrial manufacturing and supply chains. These conditions are impacting material availability, production inputs, logistics, and overall operating costs. They are also contributing to increased uncertainty in global trade flows and supply chains, placing additional pressure on raw materials and transportation networks.

As a result of these ongoing pressures, Ideal Products will implement price adjustments across certain product categories. While we have worked to manage these pressures internally wherever possible, the current market conditions require us to implement the following adjustments.

Accordingly, the following price adjustments will take effect May 1, 2026:

Aluminum Cut & Roll Jacketing, (Rolls & Sheets)	25%
All aluminum Fittings	15%

Updated price pages and price books will be distributed to customers by April 10, 2026.

All orders shipped on or after May 1, 2026, will be invoiced at the new pricing, regardless of when the order was placed. Ideal Products reserves the right to manage order quantities where requested volumes exceed typical purchasing patterns.

We value the relationships we have built with our customers and appreciate your continued partnership and understanding as we navigate these evolving market conditions together. Should you have any questions, please contact your Ideal Products representative.

Sincerely,

Marissa Davis  
Sales and Business Development  
Manager - USA

Shaun Ekert
