

April 14, 2026

Due to ongoing geopolitical developments in the Middle East, Lamtec is experiencing broad-based inflationary pressure across our supply chain. As a result, most of our key raw material suppliers have implemented price increases.

To offset these sudden cost increases, Lamtec will implement a temporary raw material surcharge. This surcharge is separate from, and in addition to, the existing Section 232 aluminum tariff and will apply to all Lamtec facing products shipping on or after May 1, 2026.

	<u>Surcharge</u>
Metal Building Products	
WMP-VR, WMP-VR-R Plus, WMP-10, WMP-30, WMP-50	3.5%
R-3035 HD, Radiant Ice	2.5%
Gymguard, Arenashield	1.0%
Duct, Fabrication, & Pipe Products	
R-3035, 4348, 8849	2.5%
30 J, WMP-ASJ	3.0%
Other Facing Products	1.5% - 3.5%

This surcharge is intended to be temporary. We will continue to monitor market conditions closely and will remove the surcharge once raw material pricing stabilizes.

We value your partnership and appreciate your understanding as we navigate these market conditions together. If you have any questions, please contact your Lamtec representative.

Sincerely,

Norman Parker
Executive Vice President
