

Revolution®

redefine possible.

April 16, 2026

Dear Valued Customer,

The continued global supply chain disruptions are limiting supply and pushing prices for polyethylene higher. In order to secure the raw materials needed to manufacture our products, we are being forced to pay historically high prices from our suppliers.

Due to these dramatic and rapid cost increases, Revolution Mesquite will be implementing an additional 20% price increase effective on all orders placed on or after April 27, 2026.

Orders must call for immediate delivery. Revolution reserves the right to limit orders to historic levels.

We continue to monitor this very fluid situation and will respond as the market changes. We appreciate the current environment is challenging and we are committed to continuing to supply our customers with the highest quality and service you have relied on. We appreciate your partnership. Your Revolution sales representative is available to answer any questions you may have.

Sincerely,

Chris Reffett
National Sales Director- Sustainable Commercial
