

Dear Valued Customer,

Market disruptions continue to affect petroleum, and associated by products. This has greatly increased the costs of resins, adhesives, and transportation.

As a result of these disruptions, we must increase DuctGuard prices 12%.

Effective Date: July 20th, 2026

Please know we remain committed to providing high-quality, reliable products and supporting your business with consistent supply and service.

If you have any questions or would like to review current pricing, upcoming orders, or ways to minimize impact, I'd be glad to discuss.

We appreciate your continued partnership and understanding.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ryan Ward', is written over a light blue horizontal line.

Ryan Ward
