Subject: Price Increase Effective October 12, 2026

Dear Valued Customer,

Due to ongoing increases in transportation, freight, and fuel costs, H.B. Fuller will implement a **1.5% price increase on all products effective October 12, 2026**. This adjustment is necessary to help offset the higher costs associated with sourcing raw materials and delivering products to our customers.

While we have worked to absorb these costs through operational and supply chain efficiencies, continued increases in transportation expenses have made this adjustment necessary. This change will help us maintain the product quality, service, and delivery performance you expect.

Included in this communication is a report that helps detail the freight and fuel Impacts driving this escalation for immediate action.

We appreciate your understanding and continued business. If you have any questions, please contact your Sales Representative or Customer Service Representative.

Thank you for your partnership.

Sincerely,

Ed Zielnicki

Business Director, BAS Infrastructure & Mechanical
