CENTERLINE SADDLES

CENTER-LOK FLARED SADDLES

11/02/26

Dear Centerline Saddle distributors,

Due to the continuous increase in steel pricing as well as shipping costs, there will be a 10% increase on 12/01/2026 on our standard gauge saddles. There will also be no multiplier on all heavy gauge (18-12) as well as any lighter gauge saddles that are longer than 12". Stainless steel saddles will be increasing by 14% as well.

I put this on hold for as long as I could, but unfortunately, I can no longer ignore the increasing prices of not just the metal, but everything that is involved in producing and shipping our saddles.

I appreciate all our Centerline distributors and if the steel pricing comes back down, as will I.

Sincerely,

Josh Carpenter, SCI-Centerline
